The book offers updates on

developments in Tulsa generally and in Tulsa's Greenwood District specifically since the publication of Hannibal B. Johnson's, *Black Wall Street: From Riot to Renaissance in Tulsa's Historic Greenwood District*. *Black Wall Street 100* is a window into what distinguishes the Tulsa of today from the Tulsa of a century ago. Before peering through that porthole, we must first reflect on Tulsa's Historic Greenwood District in all its splendor and squalor, from the prodigious entrepreneurial spirit that pervaded it to the carnage that characterized the 1921 massacre to the post-massacre rebound and rebuilding that raised the District to new heights to the mid-twentieth-century decline that proved to be a second near-fatal blow to the current recalibration and rebranding of a resurgent, but differently configured, community. Tulsa's trajectory may be instructive for other communities similarly seeking to address their own histories of racial trauma. Conversely, Tulsa may benefit from learning more about the paths taken by other communities. Through sharing and synergy, we stand a better chance of doing the work necessary to spur healing and move farther toward the reconciliation of which we so often speak.

Using the same tasting principles he offers in his Kentucky Derby Museum classes and as a judge at the San Francisco World Spirits Competition, Minnick cuts to the chase, dismissing brand marketing and judging only the flavor of this all-American whiskey. *Bourbon Curious* groups bourbon into four main flavor profiles—grain, nutmeg, caramel, and cinnamon. While many bourbons boast all four flavor notes, one delicious sensation typically overpowers the rest. This book reveals more than 50 bourbon brands' predominate tastes and suggests cocktail recipes to complement them. In addition, Minnick spends some time busting bourbon's myths; unraveling its mysteries; and exploring distiller secrets, disclosing the recipes you won't find on a bottle's label. This updated edition contains all the best new bourbons and revised tasting notes on any bourbons that have undergone a substantial change since the original edition. And like good-tasting bourbon, *Bourbon Curious* is approachable to all!

cox business center tulsa ok: *The Ground Breaking* Scott Ellsworth, 2021-05-20 ** Chosen by Oprah Daily as one of the Best Books to Pick Up in May 2021 ** 'Fast-paced but nuanced ... impeccably researched ... a much-needed book' *The Guardian* "[S]o dystopian and apocalyptic that you can hardly believe what you are reading. ... But the story [it] tells is an essential one, with just a glimmer of hope in it. Because of the work of Ellsworth and many others, America is finally staring this appalling chapter of its history in the face. It's not a pretty sight.' *Sunday Times* A gripping exploration of the worst single incident of racial violence in American history, timed to coincide with

its 100th anniversary. On 31 May 1921, in the city of Tulsa, Oklahoma, a mob of white men and women reduced a prosperous African American community, known as Black Wall Street, to rubble, leaving countless dead and unaccounted for, and thousands of homes and businesses destroyed. But along with the bodies, they buried the secrets of the crime. Scott Ellsworth, a native of Tulsa, became determined to unearth the secrets of his home town. Now, nearly 40 years after his first major historical account of the massacre, Ellsworth returns to the city in search of answers. Along with a prominent African American forensic archaeologist whose family survived the riots, Ellsworth has been tasked with locating and exhuming the mass graves and identifying the victims for the first time. But the investigation is not simply to find graves or bodies - it is a reckoning with one of the darkest chapters of American history. '[A] riveting, painful-to-read account of a mass crime that, to our everlasting shame ... has avoided justice. Ellsworth's book presents us with a clear history of the Tulsa massacre and with that rendering, a chance for atonement ... Readers of this book will fervently hope we take that opportunity.'
