This year's report introduces major improvements by expanding the paying taxes indicators to cover postfiling processes—tax audits, tax refunds and tax appeals—and presents analysis of pilot data on selling to the government which measures public procurement regulations. Also for the first time this year *Doing Business* collects data on Somalia, bringing the total number of economies covered to 190. Using the data originally developed by Women, Business and the Law, this year for the first time *Doing Business* adds a gender component to three indicators—starting a business, registering property, and enforcing contracts—and finds that those economies which limit women's access in these areas have fewer women working in the private sector both as employers and employees. The report updates all indicators as of June 1, 2016, ranks economies on their overall "ease of doing business†", and analyzes reforms to business regulation †" identifying which economies are strengthening their business environment the most. *Doing Business* illustrates how reforms in business regulations are being used to analyze economic outcomes for domestic entrepreneurs and for the wider economy. It is a flagship product produced in partnership by the World Bank Group that garners worldwide attention on regulatory barriers to entrepreneurship. More than 137 economies have used the *Doing Business* indicators to shape reform agendas and monitor improvements on the ground. In addition, the *Doing Business* data has generated over 2,182 articles in peer-reviewed academic journals since its inception.

creative business boost hello alic: *To You and Your Children* Benjamin K. Wikner, 2004 Scripture promises that God's people shall not labor in vain, nor bring forth children for trouble; for they shall be the descendants of the blessed of the Lord, and their offspring with them (Is. 65:22-23), and that Christ will turn...the hearts of the children to their fathers (Mal. 4:6). Yet Christian parents today face a disturbing exodus of their children from the Church to the world. Why is this? What is the place of children within the faith? What do the promises mean? Recognizing that this subject is fraught with difficulty and grief, the twelve contributors to this volume seek to address the hard questions and lay a biblical foundation of hope for our children. Contributors include Timothy Bayly, Joel Belz, Randy Booth, David Hagopian, Douglas Jones, Dr. Nelson D. Kloosterman, Dr. Charles Alan McIlhenny, Dr. Robert S. Rayburn, G. Mark Sumpter, Tom Trouwborst, Benjamin K. Wikner, and Douglas Wilson.

creative business boost hello alice: Trampled by Unicorns Maelle Gavet, 2020-10-06 A Wall Street Journal Bestseller An insider's revealing and in-depth examination of Big Tech's failure to keep its foundational promises and the steps the industry can take to course-correct in order to make a positive impact on the world. Trampled by Unicorns: Big Tech's Empathy Problem and How to Fix It explores how technology has progressed humanity's most noble pursuits, while also grappling with the origins of the industry's destructive empathy deficit and the practical measures Big Tech can take to self-regulate and make it right again. Author Maëlle Gavet examines the tendency for many of Big Tech's stars to stray from their user-first ideals and make products that actually profoundly damage their customers and ultimately society. Offering an account of the world of tech startups in the United States and Europe—from Amazon, Google, and Facebook to Twitter, Airbnb, and Uber (to name a few)—Trampled by Unicorns argues that the causes and consequences of Big Tech's failures originate from four main sources: the Valley's cultural insularity, the hyper-growth business model, the sector's stunning lack of diversity, and a dangerous self-sustaining ecosystem. However, the book is not just an account of how an industry came off the rails, but also a passionate call to action on how to get it back on track. Gavet, a leading technology executive and former CEO of Ozon, an executive vice president at Priceline Group, and chief operating officer of Compass, formulates a clear call to action for industry leaders, board members, employees, and consumers/users to drive the change necessary to create better, more sustainable businesses—and the steps Western governments are likely to take should tech leaders fail to do so. Steps that include reformed tax codes, reclassification of platforms as information companies, new labor laws, and algorithmic transparency and oversight. Trampled by Unicorns' exploration of the promise and dangers of technology is perfect for anyone with an interest in entrepreneurship, tech, and global commerce, and a hope of technology's all-empowering prospect. An illuminating book full of insights, Trampled by Unicorns describes a realistic path forward, even as it uncovers and explains the errors of the past. As Gavet puts it, "we don't need less tech, we need more empathetic tech." And how that crucial distinction can be achieved by the tech companies themselves, driving change as governments actively pave the road ahead.

creative business boost hello alice: The Financial Crisis Inquiry Report Financial Crisis Inquiry Commission, 2011-05-01 The Financial Crisis Inquiry Report, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world. THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bi-partisan, government-appointed panel of 10 people that was created to examine the causes, domestic and global, of the current financial and economic crisis in the United States. It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise

in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government. News Dissector DANNY SCHECHTER is a journalist, blogger and filmmaker. He has been reporting on economic crises since the 1980's when he was with ABC News. creative business boost hello alic: *Change Your Underwear Twice a Week* Danny Gregory, 2004-01-01 In the pre-Internet, pre-VCReoh, go ahead, call them prehistoricedays of baby boomers' grade school, the high art of audiovisual classroom programming was the filmstrip. If you're old enough, you remember the darkened room, the hum of the projector, and the beep that signaled the teacher to turn to the next frame. If you weren't busy shooting spitballs, filmstrips might even have taught you something about science, hygiene, the great bounty of American farms and factories. With simple illustrations and quaint photographs that evoke a more innocent era, *Change Your Underwear Twice a Week* is the first book to collect dozens of these filmstrip treasures together, creating a panorama of four decades of overlooked graphic design, popular culture, and inadvertent humor. Readers from the Internet generation will get a good chuckle over what appears to be electronic cave art. But you'll also discover one of the great subtexts of postwar American life. From the mid-1940s until the late 1960s, filmstrips were the coming attractions of capitalism and the American way, teaching youngsters how society wanted them to view the world. Filmstrips celebrated our foundering railroads (*Tommy Takes a Train Trip*), the space program (*The Moon, Our Nearest Neighbor*), and our trusted friend the butcher, the milkman, the mailman, and the cop. They taught us not to sit too close to our new TV sets and why we should change our underwear twice a week (presumably, Commies did this only once a week). A chronicle of America's filmstrip experience, *Change Your Underwear Twice a Week* is also a glimpse into the companies and eccentric pioneers who created these graphic gems and how they influenced several generations of American youth.

creative business boost hello alic: #GIRLBOSS Sophia Amoruso, 2014-05-06 In the New York Times bestseller that the Washington Post called "Lean In for misfits," Sophia Amoruso shares how she went from dumpster diving to founding one of the fastest-growing retailers in the world. Amoruso spent her teens hitchhiking, committing petty theft, and scrounging in dumpsters for leftover bagels. By age twenty-two she had dropped out of school, and was broke, directionless, and checking IDs in the lobby of an art school—a job she'd taken for the health insurance. It was in that lobby that Sophia decided to start selling vintage clothes on eBay. Flash forward to today, and she's the founder of Nasty Gal and the founder and CEO of Girlboss. Sophia was never a typical CEO, or a typical anything, and she's written #GIRLBOSS for other girls like her: outsiders (and insiders) seeking a unique path to success, even when that path is windy as all hell and lined with naysayers. #GIRLBOSS proves that being successful isn't about where you went to college or how popular you were in high school. It's about trusting your instincts and following your gut; knowing which rules to follow and which to break; when to button up and when to let your freak flag fly. "A witty and cleverly told account . . . creative business boost hello alic: The Everything Store Brad Stone, 2013-10-15 The authoritative account of the rise of Amazon and its intensely driven founder, Jeff Bezos, praised by the Seattle Times as the definitive account of how a tech icon came to life. Amazon.com started off delivering books through the mail. But its visionary founder, Jeff Bezos, wasn't content with being a bookseller. He wanted Amazon to become the everything store, offering limitless selection and seductive convenience at disruptively low prices. To do so, he developed a corporate culture of relentless ambition and secrecy that's never been cracked. Until now. Brad Stone enjoyed unprecedented access to current and former Amazon employees and Bezos family members, giving readers the first in-depth, fly-on-the-wall account of life at Amazon. Compared to tech's other elite innovators -- Jobs, Gates, Zuckerberg -- Bezos is a private man. But he stands out for his restless pursuit of new markets, leading Amazon into risky new ventures like the Kindle and cloud computing, and transforming retail in the same way Henry Ford revolutionized manufacturing. The Everything Store is the revealing, definitive biography of the company that placed one of the first and largest bets on the Internet and forever changed the way we shop and read.

creative business boost hello alic: *Beneath the Same Stars* Phyllis Cole-Dai, 2018-07-28 Perhaps every woman will lie for the man she lies with.-Sarah Wakefield August 18, 1862. On the Sioux reservation in southwestern Minnesota, Indians desperate for food and freedom rise up against whites in the region. Sarah Wakefield, the wife of a physician, is taken captive with her two babies. Their fate falls into the hands of the warrior Caske, with whom she has slim acquaintance. As war rages, little does she know how entwined their lives will become. *Beneath the Same Stars* is the gripping story of two people, caught between worlds, who are willing to do almost anything to defend those they care about-including each other. But the drama is bigger than themselves. Tragic forces have been set in motion.... Inspired by actual events surrounding the U.S.-Dakota War. ADVANCE PRAISE FOR *Beneath the Same Stars* I come from a family descended from Gabriel Renville (Ti Wakan, Sacred Lodge), a Sisitunwan headman who helped to resolve the U.S.-Dakota War of 1862. But among my people that conflict never ended. It still divides us today. We were once a strong, spiritual people. We need reminders of who we really are and where we come from. *Beneath the Same Stars* helps us reexamine our own history and identity. Will that create some positive change among us? I hope so, for the sake of our children, most of all.-Darlene Renville Pipeboy, independent Dakota scholar and elder This is a sensitive portrait of a complicated woman

caught in the politically and culturally fraught conflict that led to the U.S.-Dakota War. It both reflects the prejudices and divisiveness of that time and offers bridges to help heal the rifts between and within the communities that continue to be affected by the events of 1862 and their aftermath. The novel turns historical figures into living, breathing embodiments of the conflict, making tangible both the historical events and the contemporary impact of those events on all the affected communities. It raises questions and concerns of substance rather than trying to resolve them and is a constructive contribution to the dialogue we continue to need.-Carol Chomsky, Professor, University of Minnesota Law School, and author of *The United States-Dakota War Trials: A Study in Military Injustice Beneath the Same Stars* weaves feeling and concern into the tragic landscape of the U.S.-Dakota Conflict. Readers are taken on a journey beyond history-book headlines and into the world of a woman who, despite confusion and weakness, dares to care. The story has echoes for today-it invites us all to acknowledge and appreciate cultural differences despite the ever-present social anxiety directing us not to.-Jim Green, former director, Institute for Dakota Studies, Sisseton Wahpeton Tribal College; co-director, Center for Indigenous Teaching, Sinte Gleska University This novel, whose title beautifully expresses the ongoing relevance of the so-called past, should be widely read and discussed in schools and communities. Through impressive research and powerful storytelling, Cole-Dai contextualizes one of this country's most tragic histories exceptionally well. *Beneath the Same Stars* is a significant contribution to the literature of cross-cultural understanding.-Charles L. Woodard, Distinguished Professor Emeritus, South Dakota State University, and author of *Ancestral Voice: Conversations with N. Scott Momaday*
