### Understanding Common Grammar Mistakes: A Quick Refresher

Before diving into the worksheets, let's refresh some common grammatical pitfalls. Identifying these issues is the first step towards fixing them.

**Subject-Verb Agreement:** This refers to making sure your verb matches your subject in number (singular or plural). For example, "The dog barks loudly" is correct, while "The dog bark loudly" is incorrect.

**Pronoun Agreement:** Pronouns must agree in number and gender with the nouns they replace. Incorrect: "Each student should bring their own book." Correct: "Each student should bring his or her own book" or "All students should bring their own books."

**Comma Splices:** Joining two independent clauses with only a comma is incorrect. Use a semicolon, a conjunction (and, but, or, nor, for, so, yet), or separate them into two sentences.

**Run-on Sentences:** These are sentences that go on and on without proper punctuation, making them difficult to read. Break them down into shorter, more manageable sentences.

**Dangling Modifiers:** These are phrases or clauses that don't clearly modify the intended word in the sentence. Example: "Walking down the street, the car sped past me." (The car wasn't walking!) Correct: "Walking down the street, I saw a car speed past me."

**Misplaced Modifiers:** Similar to dangling modifiers, these are phrases that are in the wrong place in the sentence, making the meaning unclear.
